Dr Story

Dear Sir

You were kind
enough to say (when I last saw
you at the Grange) that you
thought you could procure a
preparation for dressing wheat

brought to you by  CORE

provided by University of Tasmania Open Access Repository

for me I should now feel
much obliged to you if you can
do so, I think you mentioned
that one packet contains enough

C7/172

to drop six bushels of wheat
is it likely that you could
get any more of the stuff than
one packet I should be very
glad to get five packets of it
but I expect that is out of
the question please get what
you can for me and you will
much oblige me if you can
forward it to Mr Grahams Store
I will send the price of it as
soon as you inform me what
it is —

will you inform me whos
or which

Sowing Machine is the best
and whether there are any
of them in Town just now
and what the price is? if you
can do so

Madeline joins me in best
respects to Mr & Mrs Cotton
and yourself

I am
Yours faithfully
G. P. Boulbee
